MEDIA RELEASE

Phenix City Public Works Manual

The Engineering Department has identified a need for a Public Works Manual that will consolidate all of the standards and policies that govern private development and construction/extension of the City's infrastructure. This will allow developers, design professionals, contractors and City staff to reference one concise document that will facilitate development within the City and its Planning Jurisdiction. City staff would like to provide a 30 day period for the public to review this document which will be made available on the City of Phenix City's website at <https://phenixcityal.us/>. If you have any questions or comments regarding the proposed Public Works Manual please email the Phenix City Engineering Department at EngineeringPW@phenixcityal.us.
